Foreword

This is a pivotal time in the history of the Ministry of Education and Technical Education (MOETE) in Egypt. We are embarking on the transformation of Egypt's K-12 education system (Education 2.0) starting in September 2018 with KG1, KG2 and Primary 1, continuing to be rolled out year after year until 2030. We are transforming the way in which students learn to prepare Egypt's youth to succeed in a future world that we cannot entirely imagine. The rapid technological advancement and disruptions to industries and the workplace requires MOETE to undergo a major configuration of when to learn and what to learn. The foundational skills of literacy, numeracy and digital literacy are the core. Education at a young age also needs to be multidisciplinary to broaden students' horizons, integrating the essential soft skills and competencies such as communication and critical thinking into the school curriculum. There must be joy in learning so that students are motivated to engage in lifelong learning throughout their lives keeping up and staying ahead of changes in the world.

Curriculum is not the end but the beginning of the important process of changing Egypt's education system. MOETE is very proud to present this new series of textbooks, *Connect*, with the accompanying digital learning materials that capture its vision of the transformation journey. This is the result of much consultation, much thought and a lot of work. We have drawn on the best expertise and experience from national and international organizations and education professionals to support us in translating our vision into an innovative national curriculum framework and exciting and inspiring print and digital learning materials.

The MOETE extends its deep appreciation to its own Center for Curriculum and Instructional Materials Development (CCIMD) and specifically, the CCIMD Director and her amazing team. MOETE is also very grateful to the minister's senior advisors for curriculum and early childhood education. Our deep appreciation goes to Discovery Education, Nahdet Masr, Longman Egypt, UNICEF, UNESCO, World Bank Education Experts and UK Education Experts who, collectively, supported the development of Egypt's national curriculum framework. I also thank the Egyptian Faculty of Education professors who participated in reviewing the national curriculum framework. Finally, I thank each and every MOETE administrator in all MOETE sectors as well as the MOETE subject counsellors who participated in the process.

This transformation of Egypt's education system would not have been possible without the significant support of Egypt's current president, His Excellency President Abdel Fattah El-Sisi. Overhauling the education system is part of the president's vision of 'rebuilding the Egyptian citizen' and it is closely coordinated with the Ministries of Higher Education and Scientific Research, Culture, and Youth and Sports. Education 2.0 is only a part in a bigger national effort to propel Egypt to the ranks of developed countries and to ensure a great future to all of its citizens.

A Word from the Minister of Education and Technical Education

It is my great pleasure to celebrate this extraordinary moment in the history of Egypt where we launch a new education system designed to prepare a new Egyptian citizen proud of his Egyptian, Arab and African roots - a new citizen who is innovative, a critical thinker, able to understand and accept differences, competent in knowledge and life skills, able to learn for life and able to compete globally.

Egypt chose to invest in its new generations through building a transformative and modern education system consistent with international quality benchmarks. The new education system is designed to help our children and grandchildren enjoy a better future and to propel Egypt to the ranks of advanced countries in the near future. The transformation of the Egyptian citizen is Egypt's national project for the years to come and it is the only safeguard for a prosperous future.

The fulfillment of the Egyptian dream of transformation is indeed a joint responsibility among all of us; governmental institutions, parents, civil society, private sector and media institutions. Here, I would like to acknowledge the critical role of our beloved teachers who are the role models for our children and who are the cornerstone of the intended transformation.

I ask everyone of us to join hands towards this noble goal of transforming Egypt through education in order to restore Egyptian excellence, leadership and great civilization.

My warmest regards to our children who will begin this journey and my deepest respect and gratitude to our great teachers.

Dr. Tarek Galal Shawki

Introduction

Connect KG2 is the second level of an exciting new course for kindergarten learners. Using the latest methodological techniques for kindergarten classes, the course takes the children on a learning journey which is full of fun, engaging activities with friendly characters in a familiar world.

Aims of the course

The course is based on activities to develop oral and listening skills in English as well as introducing the alphabet and basic phonetic sounds. It has a background in the cognitive-developmental theory which supports and guides children as they construct their own understanding of the world. The course has been designed in alignment with the curriculum framework set by the Ministry's Center for Curriculum and Instructional Materials Development (CCIMD).

The course was developed to support teachers and students to achieve the objectives of the curriculum reform at the heart of the Egyptian Vision 2030. It was carefully designed to support whole child development; it not only supports the language development of the child, but also attends to their physical, cognitive, emotional and socio-cultural needs. Therefore, the activities combine life skills, values, issues and challenges, and Content and Language Integrated Learning (CLIL) with songs, games, stories and projects. This is done in order to create a comprehensive, successful, first steps learning experience.

Each level is divided into four main themes: *Who am I? (About me)*, *The world around me (My world)*, *How does the world work? (The wider world)*, and *Communication*. These encourage students to gradually develop their understanding of themselves, their environment and their citizenship.

Topics

Connect KG2 builds on the knowledge that students have gained in KG1, although it is suitable for complete beginners too. The context of the book reflects the children's immediate environment, so the topics draw on their knowledge and subsequently motivate them to discover more about the world through English. Topics in *Connect KG2* include actions, musical instruments, school, home, food, animals, jobs and daily activities.

The main characters

Adam and Dina are the main child characters. They are a brother and sister who live with their immediate family. They go to a kindergarten and have two close friends, Laila and Youssef. The characters are learning about their environment and the world around them, so students studying the course learn with them.

Busy Bee is a kind, wise, responsible and knowledgeable queen bee. She guides the characters as they develop and grow as individuals. She appears in the stories to help the children solve little problems concerning life skills, such as self-confidence, empathy and helping others. Busy Bee is represented throughout the course in the activity icons, which clearly show students what kind of activity it is.

Course outline

The course has the following components:

Student's Book

The Student's Book consists of two terms. Each term has four main units plus one review unit. Each main unit consists of twelve pages, which equate to six lessons, plus at least two *Play time* pages. Each unit is carefully aligned to the curriculum standards and learning outcomes.

Each unit has an appropriate topic for young children. The six lessons in each main unit include a variety of the following features:

- presentation of vocabulary in the context of an illustration, which is clearly presented and practiced through a song
- a story featuring the vocabulary in the context of chunks of useful language
- deeper exploration of life skills, values and issues
- listening and speaking practice of the target language of the unit

Introduction

- phonics presentation and practice including listening, speaking, tracing and writing tasks
- integrated content from other curriculum areas, with a focus on Math and Science, as well as Art and Social studies
- a project in which students complete a craft project and present it using the unit vocabulary
- a show and tell activity
- a unit review section

After each main unit, there are at least two pages of *Play time* activities. These pages are extra material designed for students to work independently. They revise known language so they can be assigned at any time. They are ideal for fast finishers. However, since these pages are extra revision material, it is not vital that these pages are completed. They are intended to be extra fun tasks only and are not compulsory.

The review units at the end of each term are designed to practice and consolidate the language students learned so far.

At the end of the book are a selection of cut out materials to be used as interactive resources. Full guidance about when to use these are given in the Teacher's Guide notes.

Teacher's Guide

A full-color Teacher's Guide includes every page of the Student's Book set opposite the accompanying notes. Answers to all questions can be found in these Student's Book pages. This comprehensive guide provides detailed lesson plans on how to teach all activities, and suggested key teacher language. Audioscripts for all the recorded material are also provided.

Each lesson begins with a lesson box highlighting objectives, vocabulary, key language and additional material required for the lesson, including any other materials that may need to be prepared beforehand.

Step-by-step teaching notes suggest how to approach the lesson. Every lesson begins with suggested warm up activities to revise language from previous lessons. The notes suggest many ideas about how to access previous knowledge and experiences within new topics. There are fast finisher activities and practice game suggestions at the end of each lesson.

CD

The audio CD includes all the recorded material with age-appropriate songs and stories, which were carefully written and produced for the age group.

Digital materials

Links are included throughout the Teacher's Guide to animated videos of the songs and stories. Animation brings the story content to life and additional fun and action to the songs. There are also supporting videos for some integrated curriculum content to help teachers to explain more difficult concepts.

How to use the course

Unit walkthrough

There are two Student's Book pages for each lesson. Each lesson has a particular focus.

Vocabulary

Students listen to the new words and find the items in the picture.

Students then listen to the song and sing along as much as they can. They can also sing on their own with the karaoke version of the song.

Confidence with new language is gradually built up through fun activities.

The artwork is bright and colorful with lots of details for students to find and discuss.

The word box shows the new words of the unit. The words are in blue because the students are not expected to be able to read them. Words will be presented in black for students to read later on.

The language in each lesson is clearly presented to teachers and parents in the footer.

Vocabulary: bathroom, bedroom, garden, house, kitchen, living room

Introduction

Story

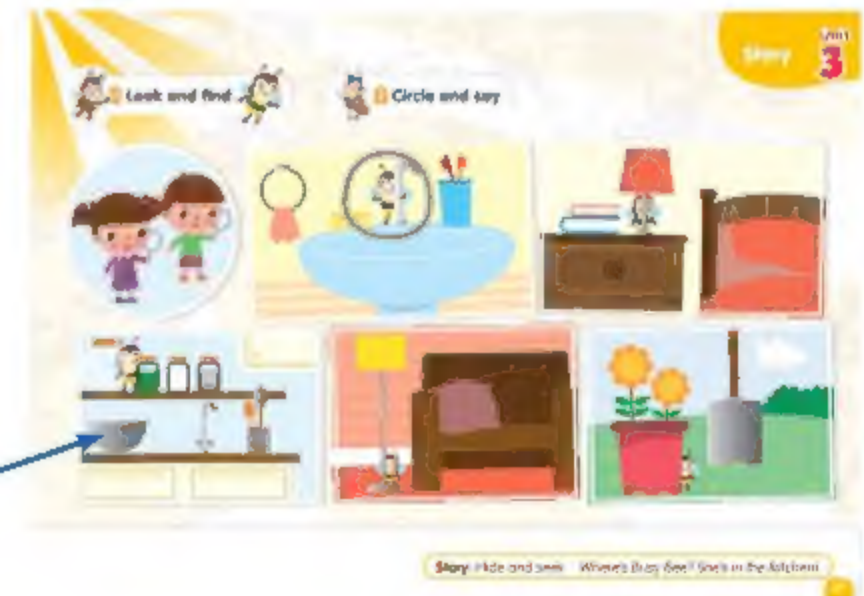

The activities are clearly shown to students with the fun icons of Busy Bee.

Every story in the course presents a minor problem that must be solved by the characters. At this point, the teacher can pause the CD and discuss the problem with students.

Hide and seek

Children in kindergarten are learning lots of new skills. The *Look and learn* feature helps students to focus on these skills.

The lesson works toward children using language to express themselves.

Story: Hide and seek - Where's Busy Bee? She's in the kitchen.

Life skills, Values and Issues

Life skills, values and issues are integrated throughout the course but there are also specific lessons focusing on these learning points

Introduction

Listening and speaking

The focus of this lesson is for students to practice the target language in a fun listening and speaking activity

First, students listen to sample dialogues and point to the corresponding pictures on the page

By the end of the lesson, students should be comfortable using the language independently

This task requires students to cut out materials from the back of the book and use them in a fun and interactive activity

The aim of this activity is for students to practice and perform a simple dialogue in pairs. The small pictures below the heading help students to identify the language required.

1 Choose and match

2 Ask and answer

Listening and speaking. Write the words in the box next to the pictures.

Phonics

Students listen to the lively phonics chant, which presents the target sounds. They listen and repeat the sounds.

Clear guidance about the formation of each letter is given on the page. Students can then practice tracing the letter in the context of a word.

The letter sounds are presented with words that are known or simple and common so that students can link a new concept to familiar words and objects.

This feature shows students where the letters they are studying fit into the alphabet.

Introduction

English in the classroom (CLIL)

Content and Language Integrated Learning (CLIL) lessons connect topics from other areas of the curriculum, with a focus on Math and Science, as well as Art and Social Studies

In this lesson, the related curriculum area is Social Studies, but there is also an opportunity for students to build their fine motor skills

Unit review

CLIL topics relate closely to the unit topic and are carefully graded to be relevant to the curriculum that students are studying in other lessons, particularly in Math and Science

Project

In this project, students make a book about daily routine activities. This consolidates the language, the skills, values and issues dealt with in the unit.

Resources needed for the project are clearly shown on the page.

There is a clear step-by-step guide for how to create the project work. Further guidance is given in the Teacher's Guide.

Both creativity and working in groups are important elements of the kindergarten curriculum. In the projects, students create a fun craft project which can be displayed in the classroom or taken home to show their families.

After completing the project, students show their creation to the class or their group. The presentation includes practice of the target language of the unit.

Introduction

Show and tell and Unit review

For the *Show and tell* activity, students bring objects from home to show the rest of the class and to talk about. The photograph shows what students need to do. If it is difficult for students to bring items from home, they can present something which they have made or drawn.

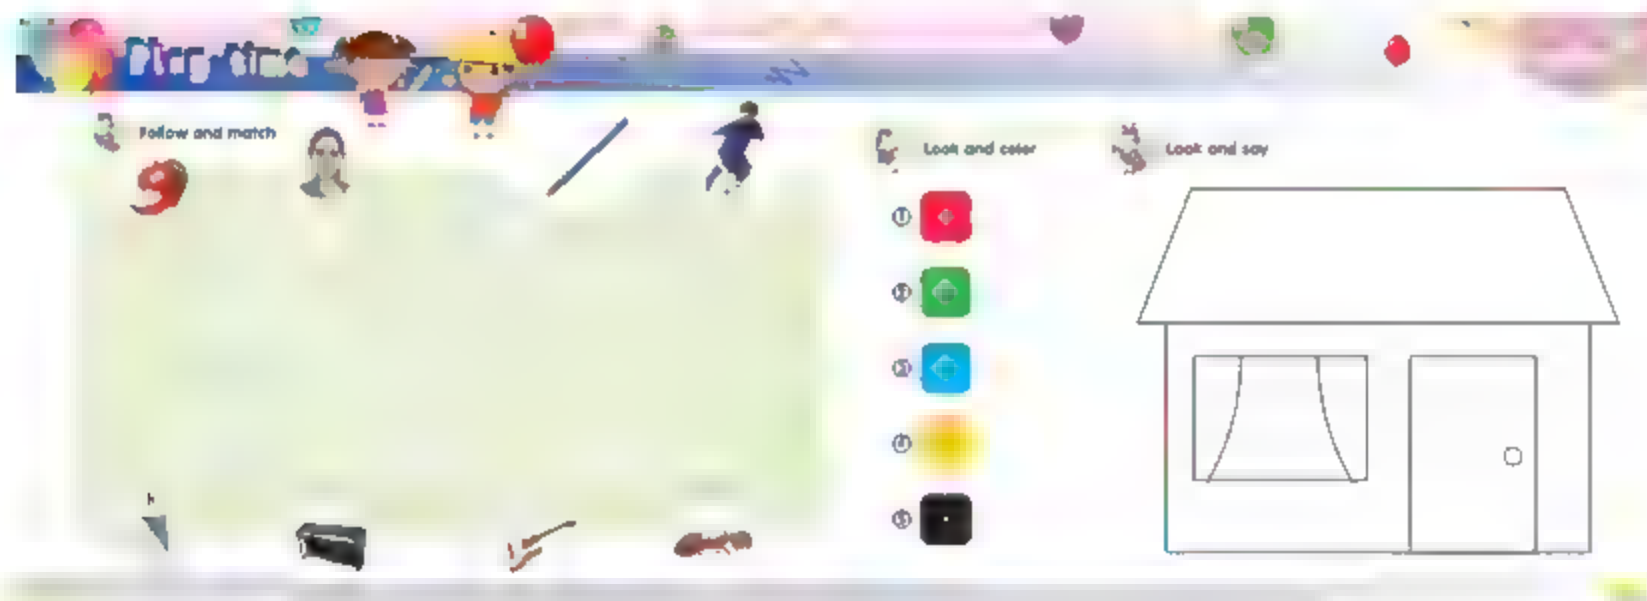

Every unit ends with a unit review. This revises all the language that students learned in the unit. This revision is guided by the teacher and then followed by student self-assessment.

The final part of the lesson is a self-assessment activity. Students look at each element of the unit. If they understand each part, they color the faces. Full guidance for this section is given in the Teacher's Guide.

Play time

These pages are extra material designed for students to work independently. They revise known language so can be assigned at any time. They are ideal for fast finishers.

The tasks on these pages are intended as extra practice. They include coloring, tracing, writing, matching and other fun revision activities.

Phonics

How to teach phonics

The course supports children's phonemic awareness development through *Learn sounds with Busy Bee* in each unit, with emergent writing skills practice. Each phonics lesson focuses on two key letter sounds of the alphabet, using familiar vocabulary from the unit. At the end of *Connect & Create*, there is a revision of all the letters and sounds learnt throughout the course.

Each letter sound is presented using the same procedure. Teachers show a picture, item or action to elicit the word, e.g. they kick their leg to elicit the word *kick*. Then they draw the letter on the board and point and say the letter sound, e.g. *k*, and encourage students to repeat. They kick again and elicit *kick*. Finally, they point to the letter and do the action at the same time, so that students are saying the letter sound and then the word, e.g. *k* kick.

A chant reinforces the correct pronunciation of the sounds in the selected words with the help of Busy Bee. There is further help to consolidate the children's ability to recognize familiar sounds and see differences between them from others. With continued practice, children begin to grasp the alphabetic principle and combine their knowledge of print and sound.

How to teach emergent reading and writing skills

This course was carefully designed to help scaffold both pre-literacy and early literacy skills in the developing child. In the emergent stage, a child is learning about print and sound as they develop oral language. This course strives to provide all the necessary resources and activities to help a child develop oral language through listening and recognition activities, songs, stories and simple dialogues.

In *Connect & Create*, students are taught two new letter sounds in each phonics lesson. Through the activities they practice identifying and saying the letter sounds and identifying words with those initial sounds. Printed words in the Student's Book appear in blue font as they are not intended for students to read. Later in the course, words are written in black font and students are meant to read these.

The development of age-appropriate writing skills is also carefully introduced. Pre-writing activities such as drawing patterns, tracing or matching lines between objects are provided, which give experience and awareness of the importance of writing from left to right. Attention is given to the correct seating position for writing. Students should sit straight upright facing their desk with their feet flat on the floor in front of them. Attention is also given to the development of fine motor skills such as holding a pencil or crayon correctly. They should hold the pencil between their thumb and forefinger, with the pencil resting on the third finger, via tripod grip. The thumb and forefinger should be able to move slightly – make sure students don't grip the pencil too tightly.

Students are shown how to write each of the letters they are taught. Use the Sky Writing procedure. The teacher stands with their dominant hand raised straight out (do not bend the elbow). Use two fingers and rotate at the shoulder.

The teacher writes on the lines and says the steps out loud. Then, students trace the letter in the air, saying the steps out loud with the teacher.

Repeat each letter.

For example, to write the letter *h*, say *Start at the Sky Line, go straight down to the grass line, go up and round to the plane line and round down to the grass line*. Then the teacher models the correct letter formation on the board. Then students trace over letters in the book, first with a finger, and then with a pencil, and then they copy the letters, while the teacher encourages them to take care to follow the directional arrows on the page.

Encourage the children to understand how writing, drawing, painting and creating things help us to communicate in our everyday lives. Create a rich and inviting environment in your classroom, with posters and classroom signs decorating the walls.

CLIL

CLIL (Content and Language Integrated Learning) allows us to explore more than just the language, taking children to other spheres and areas of learning through the medium of English. In this course the CLIL areas closely related to the theme of the unit and story content in which areas such as Math and Science are focused on, as well as Social studies, Art and Music. The material included is engaging, age appropriate and opens the door to new areas of learning around a topic.

Teaching life skills

Children at kindergarten age are learning a wide variety of essential skills. The curriculum framework divides life skills into four learning dimensions:

- **Learning to live together, skills for active citizenship:** respect for diversity, empathy, participation, accountability. In *Connect AG2*, skills introduced for this dimension include participation (working together) and respect for diversity.
- **Learning to be, skills for personal empowerment:** self-management, resilience, communication. In *Connect AG2*, skills introduced for this dimension include debating, independence and self-confidence, effective listening and assessing progress.
- **Learning to do, skills for employability:** cooperation, negotiation, decision making, productivity. In *Connect AG2*, skills introduced for this dimension include respecting others, working in groups and following rules.
- **Learning to know, skills for learning:** creativity, critical thinking and problem solving. In *Connect AG2*, skills introduced for this dimension include problem solving in each of the stories and creative thinking in project and presentation tasks. Stories, activities, and songs promote and develop critical thinking and problem solving skills in the classroom. The aim is to make thinking fun for the children.

The methodology is underpinned by current thinking skill trends in early years of education. While learning English, specific attention should be dedicated to the development of a child's ability to recall information, ask questions, make decisions, solve problems, evaluate and organize information in addition to creating their own work. With the materials as a whole, the students actively contribute to their own cognitive development, which helps to create confident, smart, early thinkers.

Teaching values

Values education is the teaching of values such as curiosity, independence, integrity, tolerance, respect, participation, perseverance, cooperation and independence. These values help to create good citizens, and are very important development steps for children of this age.

Students are introduced to simple values topics set in a familiar context. They are shown common situations in school life, in the context of the story and in the form of photos and songs. Through these they are guided toward behaviors such as curiosity, perseverance, cooperation, politeness and respect, to enhance and increase independence.

Teaching issues and challenges

The curriculum framework identifies contemporary and urgent issues that are necessary at local and global levels to achieve a high quality of learning. The five major areas identified by the framework are:

- Non-discrimination issues
- Citizenship issues
- Environmental and development issues
- Health and population issues
- Issues of globalization

These issues are woven into the course where appropriate to the topic and understanding of the students. Some issues are addressed directly on the page. An example of this is the lesson about the importance of a healthy lifestyle in Unit 1. Other issues can be introduced by the teacher if suitable for the class. Guidance is given about this in the Teacher's Guide.

Total Physical Response (TPR)

This is a method of teaching vocabulary and concepts by using physical movement to react to the teacher's input. It is a process that can boost language learning since it is inclusive and creates a sense of community in the classroom. TPR can be used as an opener at the start of the class. Simple chants with classroom instructions such as *stand up, sit down, clap your hands and open your books* are some of the common instructions which could be used.

TPR is also used to react to the content of songs in miming activities and guessing games.

Projects in the classroom

Promoting craft in the classroom is an essential part of a child's development. It develops fine motor skills and encourages children to explore their creativity and organizational skills whilst encouraging sharing and collaboration in the classroom.

The projects in this course were selected for their appropriacy and simplicity in terms of classroom management. The materials required are easy to attain and the tasks are manageable and engaging for children of this age.

A clear step-by-step demonstration is required from the teacher, who should monitor carefully, helping those in need before progressing to the next stage.

Craft can also be a springboard for speaking activities, classroom displays, role-plays, songs and stories.

Using the Games Bank

Games are an essential element of effective lessons for this age group. They bring many benefits, including consolidating motor skills, developing cooperative skills, practicing vocabulary and sounds, and adding variety and enjoyment to lessons. There is a suggested game at the end of each lesson, and sometimes at the start of a lesson or for fast finishers as well, and these are clearly referenced in the teaching notes.

All the games are explained in the Games Bank at the end of the book. The games practice motor skills, vocabulary and letter sounds in an enjoyable and active way. There are a variety of whole class, group and pairwork games and they can be adapted to suit the needs of any class.

Characteristics of young learners

Very young children by nature are very inquisitive, active learners. For many, it will be their first experience of formal education and as such they need to feel safe and comfortable in their surroundings in order to progress. Ensure that your classroom is visually appealing with children's work and posters decorating the walls. If space permits, have reading corners, role-play and project areas in order to promote pre-reading skills and learning through play and creativity. Young children are often egocentric and tend to have very short attention spans, which impacts on our choice and the length of activities. It also means that key concepts need to be repeated and revised regularly. Encourage group work and sharing and tailor your activities so they are short and varied. Children of this age also need lots of positive reinforcement and praise from their teachers, who should be friendly, fair and firm.

Techniques for teaching young learners

Children use imaginative play to help them make sense of the world, so as teachers we should harness this by bringing puppets and toys to the classroom. A class mascot can be a great comfort for children who are reluctant to leave their family and can be used to greet and calm them in addition to explaining activities and classroom rules. A mystery bag or box with treasures and objects inside are also valuable tools in the Young Learner's classroom and can be used to introduce new vocabulary and to capture children's attention. Children of this age learn well through doing, so ensure that all activities are meaning-focused and appropriate to their stage of development.

Classroom Management

Working in whole class, pairs, groups

Establishing routines in the Young Learner classroom is key to having an organized classroom and saves valuable time. Routines create a predictable pattern and once established children begin to understand what is expected of them and how they should act. In this way, we facilitate and promote meaningful learning in the classroom. Try to incorporate the following routines in your classroom:

Hello time

Greet the children in a friendly way. Sing or play a *Hello* song. Use a class mascot to greet the children and take the register.

Opener

Use the same format as above to present or revise new language or to sing a song from the previous lesson. Use a class mascot, pictures and realia to capture children's attention.

Shoulder Partners

Students lean and talk quietly with the person sitting next to them. Shoulder partners can be used literally to just talk to the people sitting on either side, or for slightly larger groups of 3-4 with everyone's shoulders "touching" (this promotes the ability to speak softly – a sort of a huddle).

Turn and Talk

Students turn "knee to knee" and "eye to eye" with a shoulder partner to discuss answers to long-form questions. This strategy allows students to discuss ideas, reflect on learning, and check each other's answers.

Introduction

Lean and Whisper

Students lean one shoulder in toward one neighbor to answer a question that has a one to two-word (or short) answer. This strategy engages all students in answering a question without disrupting the flow of the classroom.

Playing time

This could be a free play stage at the end of the class. It could be theme related (take in a big box of dressing up clothes and hats, plastic food or foam letters and shapes) or the children could play in the different areas you have created in the classroom, the reading corner, for example. Observe how they play and interact with their classmates.

Tidy up time

Ensure that there is time at the end of the class for the children to tidy up their tables. Make sure they put away their books, crayon pots and put their chairs under the tables. Establishing a set routine for this will enable the children to become more independent as the school year progresses.

Goodbye time

Use this opportunity for the children to say goodbye to you and the class mascot in a calm, relaxing manner.

Classroom language

Classroom language needs to be simple, meaningful and repetitive. Children learn quickly, but forget easily. Use language that children can associate with a certain routine or activity which is regularly used in class. Accompany the language with gestures until the children successfully learn the language. Be patient and consistent. Try to incorporate the following language into your English class routines.

'Come here, everyone'

'Let's sit down'

'Let's be quiet'

'It's time for a story'

'Stand up, please'

'Go to your table'

'Open your books'

'Close your books'

'Tidy up, please'

'Stand in a line'

I hope you enjoy using this innovative new course which was lovingly written and designed to create a memorable and purposeful language learning experience.

These *Let's remember* pages are intended to be used with students that have completed *Connect KG1*. These pages revise the vocabulary taught in kindergarten level 1. If your students have not studied kindergarten 1, you can use these pages for practice later in the year.

1 Look and write

- 1 Remind the students of the letters and sounds they learned in kindergarten 1. Play *Circle it* (Games Bank, page 68) to revise these letters and sounds.
- 2 Tell the students to look carefully at the pictures and the letters. They need to identify the correct initial letter for each word.
- 3 Check that the students remember the vocabulary. Say each word and ask the students to point to the correct picture. Ask them to hold up their books to show you their answers.
- 4 Point to each picture and ask the class to say the correct sound and word.
- 5 With your back to the class, show students how to draw simple lines and patterns with a finger in the air. Ask students to do the same, and make sure they draw the pattern from left to right. Do this activity with different shapes and sizes of lines. Alternatively, you could draw the lines on the board one at a time and get the children to copy them in the air.
- 6 Model the letter formation for the letter *s*. Say the sound /s/. With your back to the class, write a large letter *s* in the air with a finger. Make the starting point and direction of writing clear.
- 7 Ask the students where *s* needs to be written on the page (under *strawberry*). Ask them to do this and check that they form the letter correctly.
- 8 Repeat steps 6 and 7 for the rest of the letters.

Do this activity with different shapes and sizes of lines. Alternatively, you could draw the lines on the board one at a time and get the children to copy them in the air.
6. Model the letter formation for the letter *b*. Say the sound /b/. With your back to the class, write a large letter *b* in the air with a finger. Make the starting point and direction of writing clear.
7. Ask the students where *b* needs to be written on the page (under *book*). Ask them to do this and check that they form the letter correctly.
8. Repeat steps 6 and 7 for the rest of the letters.

Digital link. A video of this song can be accessed by using this link: <https://ms.ckb.eg.gov/yp-connect-kg2-a.1>

1 Match and say

- Help the students to find page 7.
- Use the pictures at the bottom of the page to elicit the words. Ask *What's this?* (kick, skip, climb, hop, run, jump).
- Then say *Now work in your group and match*. Students identify the first picture in the bottom row (climb) and look for a silhouette of the same picture in the top row. They carefully draw a line from the picture of climb to the silhouette.
- Repeat for the other pictures. Go around the classroom and help as necessary.
- Then say *Now say*. Encourage students to say *Climb. I can climb.*

2 Color

- Practice any known colors with a game of *Color Spot* (Games Bank, page 68). Say *Find something (red)*. Students find and point to something (red) in the classroom.

- Students work carefully to color the pictures as neatly as they can.
- Students point to their finished pictures and say the words *climb, run, kick, hop, jump and skip*. Encourage them to say the colors *It's (red)*. Go around the classroom and help as necessary.

Extra practice

- 1 Ask the students to work in pairs to show their pictures to their partner.

- In pairs, the students can practice saying the action words for a partner to do, or they can do the actions together.

Practice game

Play *Teacher says (1)* (Games Bank, page 70).

- Give instructions for the students to do. Say *Teacher says (hop)* and hop yourself to demonstrate. Students hop. Continue with climb, jump, kick, run and skip.

- Point at the photos. Ask what the children are doing (eating and drinking). What are they eating? (fruit, crisps) What are they drinking? (water, cola)
- Ask the students what kinds of food and drink are healthy. What kinds of food and drink are unhealthy?
- Point to the faces at the top of the page. Ask the students what the difference is between these two faces (one is happy and one is sad).
- Look at the photos of the two girls. Which girl is eating healthy food?
- Say *Let's draw*. Ask the students to draw a happy smile on the face next to the girl eating fruit. Ask them to draw a sad smile on the face next to the girl eating crisps.
- Ask them to hold up their books to show you their work.
- Look at the photos of the two boys. Which boy is drinking a healthy drink?
- Say *Let's draw*. Ask the students to draw a happy smile on the face next to the boy drinking water. Ask them to draw a sad smile on the face next to the boy drinking cola.
- Ask them to check their answers with their shoulder partner.
- Ask them to hold up their books to show you their work. Say *Well done!*

Let's be healthy

- Students can draw a picture of themselves doing one of the actions they have learned. You could use these pictures to start an actions wall display.

Unit 1

Practice game

Play *Guess the picture* (Games Bank, page 68).

- 1 Slowly draw a picture of an action, e.g. *run* on the board. Pause for students to guess the word.
- 2 Students could play in teams, with each group trying to guess first.
- 3 Continue with all the actions.

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days.
- Say *We talked about being healthy. We can eat healthy food, jump, run and kick. Next we will say what we can do.*

LESSON 1

page 12

Objectives: To ask and answer about whether you can do an action
To listen to and practice a dialogue in pairs

Vocabulary: *climb, hop, jump, kick, run, skip*

Language: *I can (skip). Can you (skip)? Yes, I can.*

Materials: Student's Book pages 12 and 13
Class CD
Coloring pencils or crayons
Optional: paper for the *Fast finishers* activity

Opener

- Play *Teacher says* (1) or (2) (Games Bank, page 68) to revise the action words.
- Play the *Let's be healthy!* song from Lesson 3 with the class and students sing along and do the actions on the spot.

1 [CD 1.9] Listen and point

- 1 Help the students to find page 12.
- 2 Look at the picture with the class. Ask *What can you see?* There are two girls in the classroom, looking at a healthy body poster. The girls are talking about and showing each other the actions they can do.
- 3 Say *Listen and point*. Play the CD to the class. Ask students to point to the pictures of the actions on the poster as they hear them mentioned.

Narrator: 4	Girl 2: I can jump
Narrator: 5	Girl 2: I can run
Narrator: 6	Girl 2: I can kick a ball

2 Make a class poster

- 1 Students look at the cut-outs on page 71. They cut them out and make a poster of actions similar to the one on page 12 of their Student's Book.
- 2 Hang the students' posters on the wall. Ask confident students to come to the front of the class and talk about their posters.

3 Look and say

- 1 Say *Let's think and say!* Point to the healthy body poster.
- 2 Encourage the students to name each of the actions. Point to jump. Say *I can jump!* Encourage students to repeat.

Narrator: 1
 Boy 1: I can kick a ball
 Narrator: 2
 Girl 1: I can jump
 Narrator: 3
 Boy 1: I can hug

2 Trace

- 1 Ask students to look at the first picture again and trace over the dotted part of the outline with a finger. Then they trace over the dotted line with a pencil.
- 2 Repeat the procedure for the other pictures.

3 Color and say

- 1 Students then use coloring pencils or crayons to color in the pictures. Circulate, asking individual children *What's this?*
- 2 They can show their completed pictures to a partner and say *I can (kick)*. Their partner can reply *I can (kick), too*.

Practice game

- If students haven't previously drawn a picture of themselves doing one of the actions they can do this now, and you could add these to a class display.
- If students don't do this in class, they can draw a picture at home and bring it to the next lesson.
- Alternatively, students can work in pairs or small groups. One student is the caller. He or she names one of the actions for the others in the group to do on the spot. As they do the action, the caller counts to five. When the caller reaches five, he or she calls out a new action for the group to do. Students can take turns to be the caller.

Practice game

Play *Guess the picture* (Games Bank, page 68)

- 4 Play the rest of the CD, pausing after each section for students to listen, choose and circle the correct picture each time.

Unit 1

- Say *We can talk about what we can do*
Next we will learn about the sounds /æ/ and /k/

- Point at the letter and say /k/. Students repeat the sound /k/ with you.
- Do the kicking action again and elicit *kick*.
- Write the word *kick* on the board and circle the letter *k* at the beginning of the word. If students notice that there is a *k* at the end of the word too, say *Well done* and point out that the same sound is at the start and end of this word. Point to the letter *k* and *kick*, saying /k/. *kick*. Ask the students to repeat.

1 [CD 1.11] Listen and repeat

- Help the students to find page 14.

Extra practice

- Point to each picture and ask the class to say the correct sound and word.

LESSON 5

page 15

1 Trace and color

- With your back to the class, show students how to draw simple lines and patterns with a finger in the air. Ask students to do the same, and make sure they draw the pattern from left to right. Do this activity with different shapes and sizes of lines. Alternatively, you could draw the lines on the board one at a time and get the children to copy them in the air.
- Model the letter formation for the letter *a*. Say the sound /æ/. With your back to the class, write a large letter *a* in the air with a finger. Make the starting point and direction of writing clear.
- Students copy the letter in the air several times, saying the letter sound as they do so.
- Model the correct way to write the letter on the board.
- Help the students to find page 15.
- Make sure students are sitting in a comfortable position for writing. They should sit straight upright facing their desk with their feet flat on the floor in front of them.
- Ask the students to trace over the dotted letter *a* in their book with a finger first.
- Check that the students can hold their pencil correctly. They should hold the pencil between their thumb and forefinger, with the pencil resting on the third finger. The thumb and forefinger should be able to move slightly. Make sure that they don't hold the pencil too tightly.
- Ask them to trace the large letter with a pencil, making sure that they follow the direction of the arrows.
- Read the two words at the top of the page to the students. Ask them to trace the letter *a* for each word.
- Repeat steps 2-11 for the letter *k*. Go around and check students' work. Help as necessary.
- Ask the students to color the pictures neatly.

Fun Activities

- Students can make an *a* or *k* poster to be displayed on the wall. They write and decorate a large *a* or *k* on the page and draw a picture to match the initial letter sound (apple, ant, kick, kite). If they know any other simple words that start with *a* or *k*, they can draw these.
- Students who do not have time to do this task during the lesson can complete it at home and bring their posters to the next lesson.
- If you have space, you could create a display board for phonics posters and add words to it throughout the course.

Unit 1

Practice game

Play *Pass the letter* (Games Bank, page 69).

- 1 Students stand in groups in lines in front of the board. Trace a letter *a* or *k* on the back of the last student in the line.
- 2 The student traces that letter on the back of the student in front of them, and they continue this until the letter reaches the student next to the board. He or she writes the letter on the board and then moves to the back of the line.
- 3 Repeat the game. You could include letters that the children already know from Level 1.

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days.
- Say *We can say /a/ and /k/.*
We can recognize and write the letters a and k.
We can find words with the /a/ and /k/ sounds.
Next we will learn more numbers and count to eight.

LESSON 8

page 16

Objectives: To count up to eight
 To recognize and use the words *one, two, three, four, five, six, seven, eight*

- 2 Make eight groups of items (*one item, two items, three items, four items, five items, six items, seven items, eight items*). Put the groups of items in different places around the classroom. Say a number. Ask the students to point to the correct group. Repeat with all of the numbers several times.
- 3 Hold up one finger and say *one*. Ask the students to repeat. Continue with the other numbers.
- 4 Repeat the exercise and ask the students to whisper the numbers quietly. Then repeat and ask the students to shout the numbers.

- 6 Draw a simple picture of a child with a ball at the top of the board and write the numbers 1-8 at the bottom of the board. Say *How many balls can you see? Yes, one ball. How many children can you see? Yes, one child.* Point to the number 1. Then draw two more children with balls. Ask a student to come to the board to count the children and to point to the number 3. Repeat the activity with other pictures and other numbers.

Unit review

1 Count and write

- Help students to find page 16. Look at the pictures together. Ask the students what they can see. Help students to identify that there are three different pictures at the top of the page (children playing, apples and balls), and the numbers 1-8 at the bottom of the page.
- Explain that they should count the objects in each picture at the top of the page and point and say the number at the bottom of the page. Say *Count and point*. Count the numbers with the children. Please note that you can count boys, girls, green apples and red apples separately for practice, but the correct answer is the total number of pictures in each box.
- Ask the students to point to and count the number of children running in the first picture. *How many children are running? Let's count!* Have them point to the correct number at the bottom of the page. *Point to the number six.* Repeat for the apples (7) and balls (8).

Extra practice

- Point to one of the pictures on the page and say *What's this?* Encourage the students to count the items or children and give the full answer. For example, if you point at the middle picture, the students should say *One, two, three, four, five, six, seven. Seven apples.*

1 Count, color and say

- Point to page 7.
- Look at the first picture with the students to elicit *jump*. Explain that the child is jumping, and that students have to count the number of jumps. *Let's count!* Help students to trace the top dotted line with a finger and to count the jumps on the dots 1, 2, 3, 4, 5, 6 as they trace.
- Students repeat the procedure for the run and kick pictures.
- Students then color the characters.

2 Trace

- Students trace over the jumps with a pencil, counting as they do so. Then they point to the number at the end of each line and say the word (*six*).
- Students trace over the number with a finger and then with a pencil. Make sure they follow the directional arrows to write the numbers. They should say the number as they trace it. Circulate, asking individual children *What number is this?*

- In pairs or small groups, students make sets of eight things in the room, for example, pens, pencils, small toys, soft balls, books, etc.

3 Look and color

- Hold up your book. Point to the vocabulary words. Ask *What are they?* to elicit the words. Ask the students if they know these words. If they know the words, they should color the smiley face next to the words.
- Point to the *Life skills* photo. Ask *What are they doing?* to elicit *run*. Discuss why exercise is important for our health. Ask the students to color the smiley face next to the photo.
- Draw the letters *a* and *k* on the board. Point to the apple in the book. Ask *What is it?* to elicit *apple*. Ask the students to point to *a* or *k* on the board.
- Point to the kicking boy. Ask *What is it?* to elicit *kick*. Ask the students to point to the correct letter on the board.
- With your back to the class, write a large letter *a* in the air with a finger. Make the starting point and direction of writing clear. Students copy the letter in the air several times, saying the letter sound as they do so. Repeat for *k*.
- Ask your students to color the smiley face next to the phonics words.

Unit 1

Practice game

Play *Follow the pattern* (Games Bank, page 68).

- 1 In pairs, students stand at one side of the room.
- 2 One student hops, jumps or skips to the other side of the room, following a meandering path, and counting: 1, 2, 3, 4, 5, 6, 7, 8.
- 3 The other student follows behind the first one, doing the same action, and also counting: 1, 2, 3, 4, 5, 6, 7, 8.
- 4 When all the students get to the other side of the room, they turn around and repeat with the other student leading.

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days.
- Say: *We can count to eight.*
Next we will learn about music and musical instruments.

- *Play time* pages give the students extra practice of the language in the unit. They can be completed at any time and are ideal for fast finishers.

2 Look and circle p and g

- 1 Look at the pictures with the class and identify the items in the pictures. What's this? (piano, pen, pink, guitar, girl, green). Say the words together with the class.
- 2 Point to the piano. Say the word *piano*. Say /p/ piano. Point to the p and show the students how to draw a circle around it.
- 3 Point to the guitar. Say the word *guitar*. Say /g/ guitar. Ask the students to draw a circle around g.
- 4 Point to the pen. Say the word *pen*. Say /p/ pen. Point to the p and show the students how to draw a circle around it.
- 5 Repeat for the other words on the page.

Extra practice

- Point to each picture and ask the class to say the correct sound and word.

LESSON 5

page 29

1 Trace and copy

- 1 With your back to the class, show students how to draw simple lines and patterns with a finger in the air. Ask students to do the same, and make sure they draw the pattern from left to right. Do this activity with different shapes and sizes of lines. Alternatively, you could draw the lines on the board one at a time and get the children to copy them in the air.
- 2 Model the letter formation for the letter p. Say the sound /p/. With your back to the class, write a large letter p in the air with a finger. Make the starting point and direction of writing clear.
- 3 Students copy the letter in the air several times, saying the letter sound as they do so.
- 4 Model the correct way to write the letter on the board.
- 5 Help the students to find page 29.
- 6 Make sure students are sitting in a comfortable position for writing. They should sit straight upright facing their desk with their feet flat on the floor in front of them.
- 7 Ask the students to trace over the dotted letter p in their book with a finger first.
- 8 Check that the students can hold their pencil correctly. They should hold the pencil between their thumb and forefinger, with the pencil resting on the third finger. The thumb and forefinger should be able to move slightly. Make sure that they don't hold the pencil too tightly.
- 9 Ask them to trace the large letter with a pencil, making sure that they follow the direction of the arrows.
- 10 Read the three words at the top of the page to the students. Ask them to trace the letter p for each word.
- 11 Repeat steps 2-10 for the letter g.

Unit 2

2 Color and say

- 1 Ask the students to color the pictures neatly.
- 2 Go around the room as they work and point to their pictures. Ask *What's this?* Encourage them to tell you the sounds, the items and the colors.
- 3 Put the students into pairs to tell their partner the sound and the word for each picture. For example, they should point at the picture of the piano and say */p/ piano*.
- 4 Choose a confident student to come to the front of the class and show his/her work to the whole class.

- Students can make a *p* or *g* poster to be displayed on the wall. They write and decorate a large *p* or *g* on the page and draw a picture to match the initial letter sound (piano, pen, pink, guitar, girl, green). If they know any other simple words that start with *p* or *g*, they can draw these.
- If you have a display board for phonics posters, add the students' poster to it.

Practice game

Play *Circle it* (Games Bank, page 68)

- 1 Draw some letters students know, from Student's Book 1, on the board and the letter *p*.
- 2 Ask for a student to come to the board and circle the letter sound */p/*.
- 3 Write some new letters and the letter *g*, and ask another student to circle the letter sound */g/*.

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days.
- Say: *We can say /g/ and /p/.*
We can recognize and write the letters g and p.
We can find words with the /g/ and /p/ sounds.
Next we will make a drum.
We will talk about musical instruments we can play.

For the next class

- Ask students to bring in a container to make a drum.
- Ask them to bring any simple musical instruments that they would like to show to the class.

page 30

Objectives: To work on a project to make a drum
 To use the new language to present your drum to the class
 To assess your own learning

Life skills: Cooperation, communication and creative thinking

Vocabulary: *drum, flute, guitar, piano, triangle*

Materials: Student's Book pages 30 and 31
 Containers (possibly from home), paper, balloons (if possible), rice, crayons, sticky tape, modeling clay, wooden sticks
 A completed drum to show the class a possible
 Coloring pencils or crayons for each child
 Optional: paper for the *Fast finishers* activity

Opener

- Wave and say *Hello* to the class.
- Revise the /p/ and /g/ sounds with the class using song from Lesson 5, page 28. Help the students to find the letters p and g and words *piano* and *guitar* on Student's Book, page 28.
- In pairs, students play a version of *Pass the letter* (Games Bank, page 69). One student draws a letter (p or g) on their partner's back. The student guesses the letter. Students take turns.

Presentation

- If you have made a drum, show this to the class.
- Say *This is a drum. Listen!* Play the drum to show students the sound it makes.
- Make sure each child has seen it properly by taking it around the class.
- 1 Make a drum**
 - Help students to find page 30.
 - Look at the pictures together with the class. Say *Look! The children are making drums. Here are the materials. They are decorating their containers. They put in rice. They use a balloon (or paper), and some tape. They roll the clay into balls. They stick. They play their drums.*

- Explain to the class that they are going to make their own drums, following the instructions in the pictures. Say *Now you try.*
- If you have asked students to bring containers in, they can use these. Alternatively, distribute the containers along with the other materials students need to make their drums.
- Show the students how to make a drum.
 - First, students decorate their piece of paper with crayons and stick this paper around the container.
 - Then they put some rice in their container and stretch the balloon over the top. They stick the balloon onto the sides so that they can tap it. If you don't have balloons, you can use paper, but you will need to tape it tightly.
 - Then they roll the modeling clay into two balls and push the balls onto the wooden sticks to make a pair of drumsticks.
- Monitor students' work. Help them to work together and help each other. They will need to share crayons, paper and tape, so encourage them to be patient.
- Ensure that they clean and tidy up when they finish.

2 Look and say

- Use calling sticks to choose a student at a time. Help the students to show their drums to the class.
- They can introduce them, by saying *I play the drum. Encourage students to use any other words they know. It's a drum. It's (red).*

1 Show and tell

- Make sure that the students have their musical instruments from home with them. Place these on your table. Any student that doesn't have a musical instrument can put the drum that they have made on your table.
- Help the students to find page 31. Look at the page with the class, and explain that the children in the picture are playing musical instruments together. Elicit the instruments. *What's this? (triangle, drum, guitar and flute).*
- Say *Let's talk about our musical instruments.*
- Choose a musical instrument and invite the student who brought it in to come to the front. Ask *What is this. (name)?*
- Encourage the students to show the instrument, play it and say *I play the (triangle).* Help students with any instrument vocabulary that they have not learned yet.
- Encourage students to use words and phrases that they have learned, such as *It's a (drum). I play the (drum).* They can use any additional vocabulary they know, such as *It's (red).*

2 Look and color

- Hold up your book.** Point to the vocabulary words. Ask *What are they?* to elicit the words.

Unit 2

Ask the students if they know these words. If they are happy that they know the words, they should color the smiley face next to the words.

- Point to the *Life skills* photo. Ask *What are they doing?* to elicit *work together*. Discuss why working together is important. Ask the students to color the smiley face next to the photo if they understand why working together is important!
- Draw the letters *p* and *g* on the board. Point to the piano in the book. Ask *What is it?* to elicit *the piano*. Ask the students to point to *p* or *g* on the board. Which is the correct letter for this word?
- Point to the guitar. Ask *What is it?* to elicit *guitar*. Ask the students to point to the correct letter on the board.
- With your back to the class, write a large letter *p* in the air with a finger. Make the starting point and direction of writing clear. Students copy the letter in the air several times, saying the letter sound as they do so. Repeat for *g*.
- Ask your students to color the smiley face next to the phonics words if they know them.

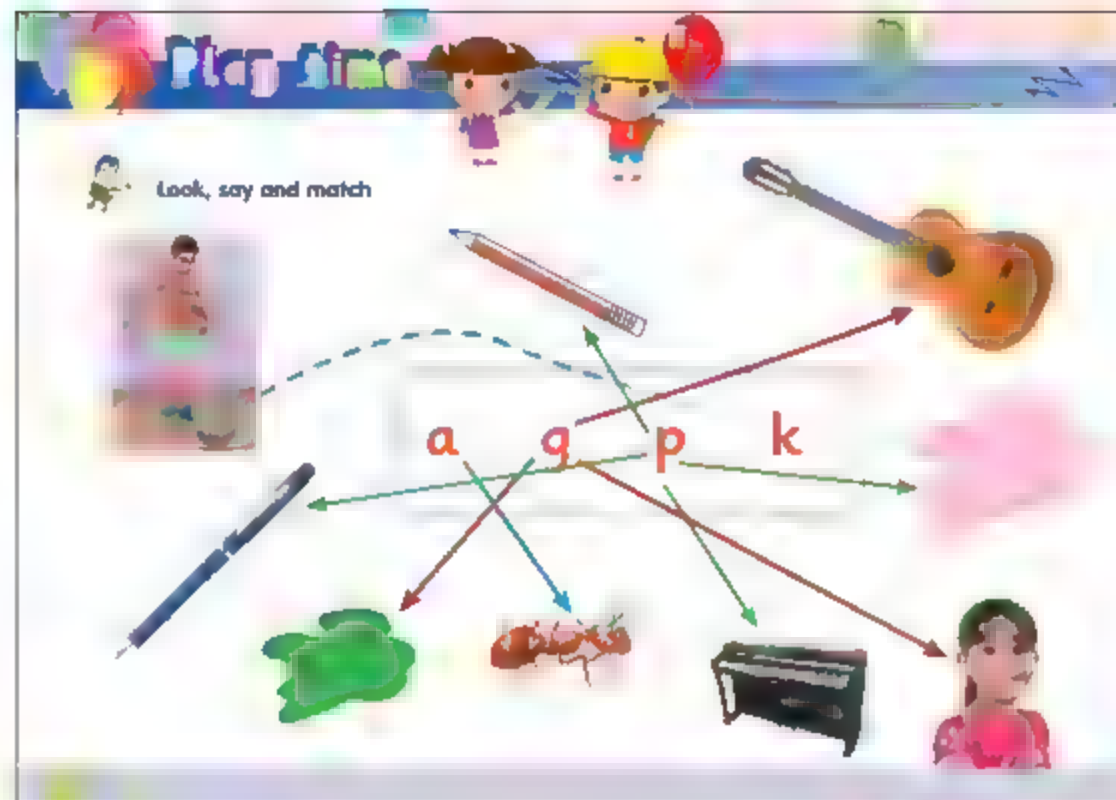

Practice game

Play *Follow the leader*.

- March around the class with your drum if you have made one (or a class drum), saying *I play the drum*.
- Students follow you, playing their drums and saying *I play the drum, too*.

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days.
- Say *We made a drum*
We talked about the musical instruments we can play.
Next we will learn about our homes

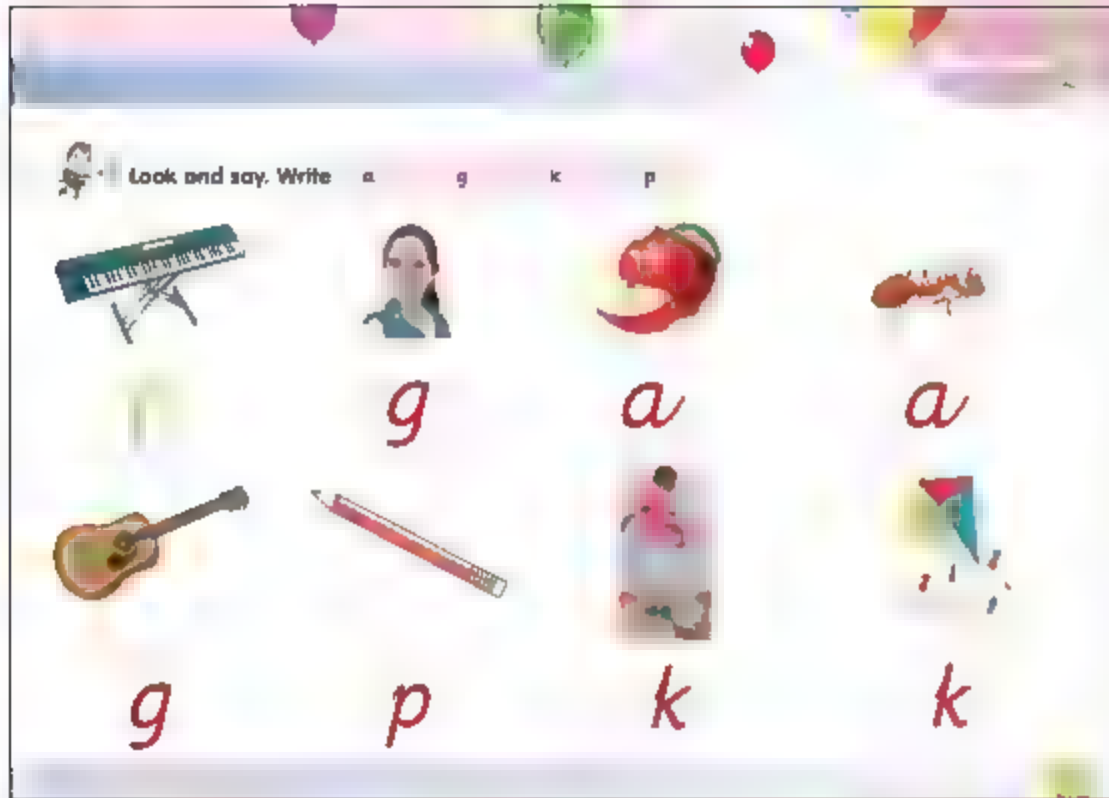

PLAY TIME

- Play time* pages give the students extra practice of the language in the unit. They can be completed at any time and are ideal for fast finishers.

1 Look, say and match

- Remind the students of the letters *g*, *p*, *a* and *k*. You can ask them to look at pages 14, 15, 28 and 29 for help if they cannot remember.
- Tell the students to look carefully at the pictures and the letters. They need to match the sound at the start of each word to the letter, as in the example.
- When they have matched all the pictures to the letters, they can show their partner and say the words.

PLAY TIME

- Play time pages give the students extra practice of the language in the unit. They can be completed at any time and are ideal for fast finishers.

1 Look and say. Write.

- Tell the students to look carefully at the pictures and the letters. They need to say the word and write the correct letter on the lines.
- Remind the students of the letters g, p, a and k. You can ask them to look at pages 14, 15, 28 and 29 for help with drawing each letter if they cannot remember.
- When they have written all the letters, they can show their partner and say the words.

Ask and answer

Listening and speaking: Where's Dina? She's in the bedroom!

- 3 Show how the students should do the activity in pairs
- 4 The students take turns to place their four character cards in different rooms of their house
- 5 Then they ask their partner where each of the characters is in the house
- 6 Model the dialogue with a student
 - Student A asks *Where's (Adam)?*
 - Student B answers *He's in the (kitchen)*
- 7 Students work in pairs, taking turns to ask and answer. Monitor carefully, helping students to pronounce the words and to play the game together nicely
- 8 Confident learners can demonstrate their game in front of the class

1 Choose and match

- 1 Help the students to find page 41
- 2 Use the pictures around the page to elicit the character names: *Dina, Adam, Laila* and *Yousef*
- 3 Point to the picture of the house to elicit the words for the parts of the house: *bathroom, bedroom, garden, house, kitchen, living room*
- 4 Students choose where they would like Dina to be and draw a matching line to show which room she is in.
- 5 Repeat the procedure for the other characters and rooms. The students are making their own decisions in this activity, so accept all good answers.

2 Ask and answer

- 1 In pairs, students take turns to ask *Where's (Laila)?* and answer according to where they have drawn the matching line to in the house (*She's in the (bathroom)*)
- 2 Monitor carefully, checking that the children understand what they have to do and are asking and answering correctly
- 3 Ask some confident pairs to show their dialogues to the class

- In pairs students act out something they do in one of the rooms for their partner to guess the room. One student says *Where am I?* and does an action, for example, brushing teeth. The other student guesses *In the bathroom*

Practice game

Play *Guess the picture* (Games Bank, page 68) to revise the parts of the house

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days.

LESSON 5

page 43

1 Trace and copy

- 1 With your back to the class, show students how to draw simple lines and patterns with a finger in the air. Ask students to do the same, and make sure they draw the pattern from left to right. Do this activity with different shapes and sizes of lines. Alternatively, you could draw the lines on the board one at a time and get the children to copy them in the air.
- 2 Model the letter formation for the letter i. Say the sound /i/. With your back to the class, write a large letter i in the air with a finger. Make the starting point and direction of writing clear. Make sure that you draw the line first and then the dot.
- 3 Students copy the letter in the air several times, saying the letter sound as they do so.
- 4 Model the correct way to write the letter on the board.
- 5 Help the students to find page 43.
- 6 Make sure students are sitting in a comfortable position for writing. They should sit straight upright facing their desk with their feet flat on the floor in front of them.
- 7 Ask the students to trace over the dotted letter i in their book with a finger first. Make sure that they are drawing the line before the dot.
- 8 Check that the students can hold their pencil correctly. They should hold the pencil between their thumb and forefinger, with the pencil resting on the third finger. The thumb and forefinger should be able to move slightly. Make sure that they don't hold the pencil too tightly.
- 9 Ask them to trace the large letter with a pencil, making sure that they follow the direction of the arrows. Go around the classroom, helping and checking that the students are forming the letter correctly.
- 10 Read the three words at the top of the page to the students. Ask them to trace the letter i for each word.
- 11 Repeat steps 2-10 for the letter u.

- Students can make an i or u poster to be displayed on the wall. They write and decorate a large i or u on the page and draw a picture to match the initial letter sound (in, insect, ink, umbrella, up). If they know any other simple words that start with i or u, they can draw these.

- If you have a display board for phonics posters, add the students' poster to it.

Unit 3

Practice game

Play *Circle it* (Games Bank, page 68).

- 1 Draw some letters students know from Student's Book 1 on the board and the letter *i*.
- 2 Use calling sticks to choose a student. Ask the student to come to the board and circle the letter sound */i/*.
- 3 Write some new letters and the letter *u*, and use calling stick to choose another student to circle the letter sound */u/*.
- 4 Repeat with more letters and sounds as revision. Choose a new student each time.

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days.
- Say *We can say /i/ and /u/.*
We can recognize and write the letters i and u.
We can find words with the /i/ and /u/ sounds.
Next we will learn about homes in Egypt.

- Demonstrate how the students should play, using volunteers.
- Show them how to mix the dominoes up and place them face up on the table in front of them.
- Encourage the students to think about what they do first in a day. Say *That's right! I get up!* Find 'get up'. The first student chooses the domino card with only the picture of *get up* on it and places it down as the beginning of the game. He or she says *I get up*. (This activity encourages an important thought process, sequencing.)
- The second student then finds the second domino that has the picture of *get up* on it and places it next to the first domino. He or she repeats the first routine: *get up* and then says the next routine they can see on that domino: *have breakfast*. They continue taking turns until they have completed the game.
- The aim is to sequence the cards correctly according to the sequence in their Student's Books. The students should have their books open as a visual reference. Ask the students to work in groups to play this game.
- Monitor carefully, helping children to pronounce the words and to take turns correctly.
- Confident students can demonstrate their dominoes game in front of the class.

LESSON 2

1 Color and say

- Help the students to find page 55.
- Use the pictures to elicit the words *get up*, *eat lunch*, *go to school* and *go to bed*.
- Ask the students to color the pictures carefully.
- When the students have finished coloring, put them into pairs. Ask them to show their

Opener

- Look at the picture with the class. Ask *What can you see?* Two girls are playing a game with daily routine dominoes (Unit 4 cut-outs).
- Look at the first picture on the domino on the left with the class. Ask *What is this?* (*get up*.)
- Say *Listen and point*. Play the first part of the CD to the class. Students listen and point to the *get up* domino.
- Play the rest of the CD, pausing after each line for students to find and point to the daily routine dominoes.

 Girl 2: I have breakfast

- pictures to their partner and say what each one shows. For example, *I get up*
 5 Encourage them to say as much as they can.

Extra practice

- Confident students could talk about their pictures to the class.

Practice game

Play *Guess the picture* (Games Bank, page 68) with *get up, go to bed, go to school, have breakfast, have dinner, have lunch and play with my friends*.

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days
- Say *We talked about what we do every day.
We played a game.
Next we will learn about the sounds /l/ and /kw/.*

page 56

Objectives: To recognize the letter sounds /l/ and /kw/
 To find words with the /l/ and /kw/ sounds
 To trace and copy the letter l and q

Vocabulary: leg, lion, lemon, queen, quiet

Materials: Student's Book pages 56 and 57
 Class CD
 A picture of a queen
 A tray of sand
 Paper for the *Fast finishers* activity

Opener

- Play *Mime it* (Games Bank, page 68) to revise the daily routines.
- Ask the students to demonstrate their dominoes games from Student's Book Lesson 4 again. If helpful, play a sentence from the recording from Student's Book, page 54 again first.

Presentation

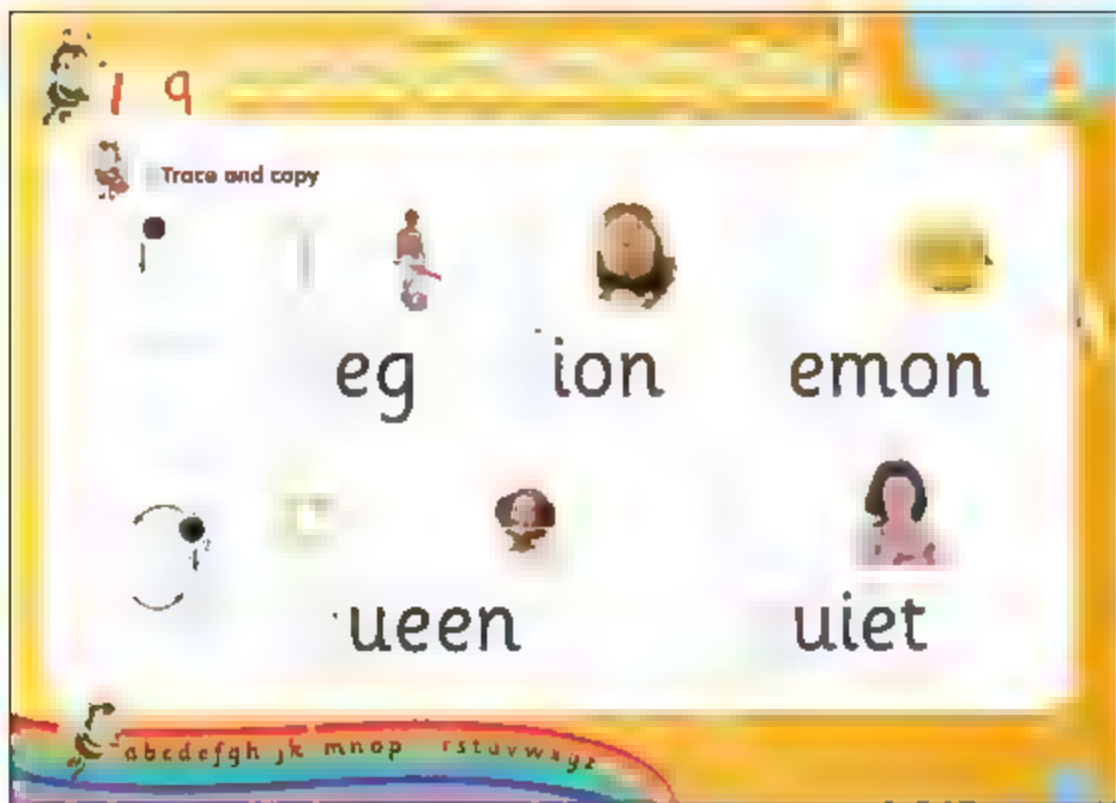

- 1 Point to your leg and ask *What's this?* Elicit *leg*.
- 2 Write the letter l on the board.

- 3 Point at the letter and say /l/. Students repeat the sound /l/ with you.
- 4 Point at your leg again and elicit *leg*.
- 5 Write *leg* on the board. Circle the letter l.
- 6 Point to the letter and then your leg quickly, saying *l leg*. Ask the students to repeat.
- 7 Pin the picture of the queen on the board and ask *What's this?* Elicit *queen*.
- 8 Write the letter q on the board.
- 9 Point at the letter and say /kw/. Students repeat the sound /kw/ with you.
- 10 Point at the queen again and elicit *queen*.
- 11 Point to the letter and queen, saying *kw queen*. Ask the students to repeat.

1 [CD 1.42] Listen and repeat

- 1 Help the students to find page 56.
- 2 Point to the picture of the leg and ask *What's this?* Students say the word *leg*.
- 3 Then point to the letter l on the page and say the sound /l/. Students repeat after you. Practice this several times.
- 4 Play the CD. Sing the first part of the first verse of the song to the class. Then play the second part of the first verse, encouraging students to listen and repeat the /l/ sound.
- 5 Repeat with the second verse for the /kw/ sound and *queen*.

Listen and repeat
Repeat with me

Queen!

2 Look and circle l and q

- 1 Look at the pictures with the class and identify the items in the pictures *What's this?* (leg, lion, lemon, queen, quiet). Say the words together with the class.
- 2 Point to the leg. Say the word *leg*. Say *li leg*. Point to the *l* and show the students how to draw a circle around it.
- 3 Point to the queen. Say the word *queen*. Say */kw/ queen*. Ask the students to draw a circle around *q*.
- 4 Point to the lion. Say the word *lion*. Say *li lion*. Point to the *l* and show the students how to draw a circle around it.
- 5 Repeat for the other words on the page.

Extra practice

- Put the class in groups of four or five. Ask each group to decorate the letter sounds *k* and *q* on paper or poster paper. They can cut out pictures of objects starting with these sounds and stick them around their poster or flyer. Hang up their products on the wall to enhance their sense of pride in what they make.

LESSON 5

page 57

1 Trace and copy

- 1 With your back to the class, show students how to draw simple lines and patterns with a finger in the air. Ask students to do the same, and make sure they draw the pattern from left to right. Do this activity with different shapes and sizes of lines. Alternatively, you could draw the lines on the board one at a time and get the children to copy them in the air.
- 2 Model the letter formation for the letter *l*. Say the sound */l/*. With your back to the class, write a large letter *l* in the air with a finger. Make the starting point and direction of writing clear.
- 3 Students copy the letter in the air several times, saying the letter sound as they do so.
- 4 Model the correct way to write the letter on the board.
- 5 Help the students to find page 57.
- 6 Make sure students are sitting in a comfortable position for writing. They should sit straight upright facing their desk with their feet flat on the floor in front of them.
- 7 Ask the students to trace over the dotted letter *l* in their book with a finger first.
- 8 Check that the students can hold their pencil correctly. They should hold the pencil between their thumb and forefinger with the pencil resting on the third finger. The thumb and forefinger should be able to move slightly. Make sure that they don't hold the pencil too tightly.

Unit 4

- 9 Ask them to trace the large letter with a pencil, making sure that they follow the direction of the arrows.
- 10 Read the three words at the top of the page to the students. Ask them to trace the letter *l* for each word.
- 11 Repeat steps 2-11 for the letter *q*.
- 12 Ask the students to color the pictures neatly.

Unit Project

- Students can make an *l* or *q* poster to be displayed on the wall. They write and decorate a large *l* or *q* on the page and draw a picture to match the initial letter sound (e.g. lion, lemon, queen, quiet). If they know any other simple words that start with *l* or *q*, they can draw these. Other students can perform this activity at home and bring it the next lesson.
- If you have a display board for phonics posters, add the students' poster to it.

Practice game

Play *Missing sound* (Games Bank, page 69)

- 1 Draw some letters students know on the board, e.g. *a, k, t, u, p, g, l, q*.
- 2 Point to each letter and ask the students to say the sound.
- 3 Ask the students to close their eyes.
- 4 Remove one letter.
- 5 Ask the students to open their eyes and tell you the missing sound.
- 6 Repeat with the other letters.

Closing

- Remind students about what they have learned so far and get them up for what they will continue learning in the upcoming days.
- Say *We can say /l/ and /kw/*
We can recognize and write the letters l and k
We can find words with the /l/ and /kw/ sounds.
Next we will learn about day and night

UNIT 5

page 58

Objectives: To learn about different times of day
 To observe scientific phenomena
 To use the words *day* and *night*

Values: Appreciation of science and scientists

Language: *I get up, I go to bed, I have lunch*

Vocabulary: *day, night*

Materials: Student's Book pages 58 and 59
 Pictures of daily activities: get up, go to bed, go to school, have breakfast, have dinner, have lunch, play with my friends
 Big pictures of the sun and the moon

Opener

- Revise the /l/ and /kw/ sounds with the class using the song from lesson 5, page 56, and the pictures drawn for the *Fast finishers* activity in the previous lesson. Help the students to find the letters / and y and the pictures for leg and queen on Student's Book, page 56
- In pairs, students play a version of *Pass the letter* (Games Bank, page 69). One student draws a letter (/ or q) on their partner's back. The student guesses the letter. Students take turns

Presentation

- Talk about day and night with the class. Say when you see the moon it is called *night*. Use a picture of the moon, and do the same with the day and the sun. Show the two pictures of the moon and the sun clearly to make sure that the students understand the concept well. Then, show the moon and say *night*. Ask the students to repeat, and then show the model of the sun and say *day*. Ask the students to repeat
- When you are completely sure that the students understand the concept of day and night, you can mention that the night comes after the day using the pictures and moving them as if one is following the other
- Ask if they can tell you what they do at night (*I go to bed*) and during the day (*I get up, I have breakfast, I go to school, I have lunch, I play with my friends, I have dinner*). Accept any other activities they do at night or in the daytime

- Revise the daily activities using the pictures.
- Draw a simple picture of the sun on the left-hand side of the board and a simple picture of the moon on the right-hand side to represent day and night. Ask a student to come to the board and put one of the daily activities pictures on the correct side of the board
- Repeat with different students for the rest of the pictures. (The only daily routine picture in the night section should be *go to bed*.)

1 [CD 1.43] Listen and point, then join

- Help the students to find page 58. Look at the pictures together. Ask the students what they can see. Help the students to identify the daily activities. Ask *What's this?* (*I get up, I have lunch, I go to bed*)
- Show the students a big picture of the sun and hold it above your head. Stand up slowly and say *I get up*. Encourage the students to do the same, stretching their arms above their heads. Sit down slowly. Say *I have lunch*. Mime having lunch. Lay the sun picture on the floor. Pick up the picture of the moon. Say *I go to bed*. Yawn and mime sleeping
- Point to the photos on the right of the page. Say *Is it day or night?* Discuss the times of day that each photo shows (1 morning, 2 day, 3 night)
- Explain that the students have to listen and match the activity to the time of day.
- Play part 1 of the CD. Ask the students to point to the correct photo (the boy getting up). Ask the students to point to the correct time of day on the right
- Check that they are all pointing to the early morning photo and ask them to draw a line from photo 1 to the early morning
- Repeat for parts 2 and 3 of the CD

Narrator:	1
Boy 1:	Good morning! I get up. It's morning
Narrator:	2
Girl 1:	Hello! I have lunch. It's day

1 [CD 1.44] Listen and say

- Point to page 59
- Point to the pictures of the sunrise, midday and sunset, and revise the concept of day and night.

- Point to each of the daily activities in the pictures. Ask *What is it?* (get up, go to school, have dinner).
- Play the first part of the CD and ask the students to point to the pictures. Check that they are all pointing to the correct pictures.
- Continue playing the CD and ask the students to point to each picture as they hear it on the CD.
- Ask the students why the pictures are in a circle (because the sun goes up and down every day and we do the same daily activities).

Adam, *Good morning! It's morning. I get up.
It's day. I go to school.
It's night. I have dinner.*

*Good morning! It's morning. I get up.
It's day. I go to school.
It's night. I have dinner.*

Extra practice

- Ask the students to work in pairs and show page 59 to their partner. Tell them to point at the pictures and say the activities.

Unit Review

- In pairs or small groups, students play *Mime It* (Games Bank, page 69) to practice the daily routines.

Practice game

- Play *What's missing* (Games Bank, page 70) with the pictures of daily activities.

For the next class

- Ask students to bring in some pyjamas and any object or cuddly toy they like to take to bed, or a bedtime story that they would like to show the class.

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days.
- Say *We learned about day and night.
We talked about the sun going up and down.
Next we will make a book about our day.*

LESSON 3

page 60

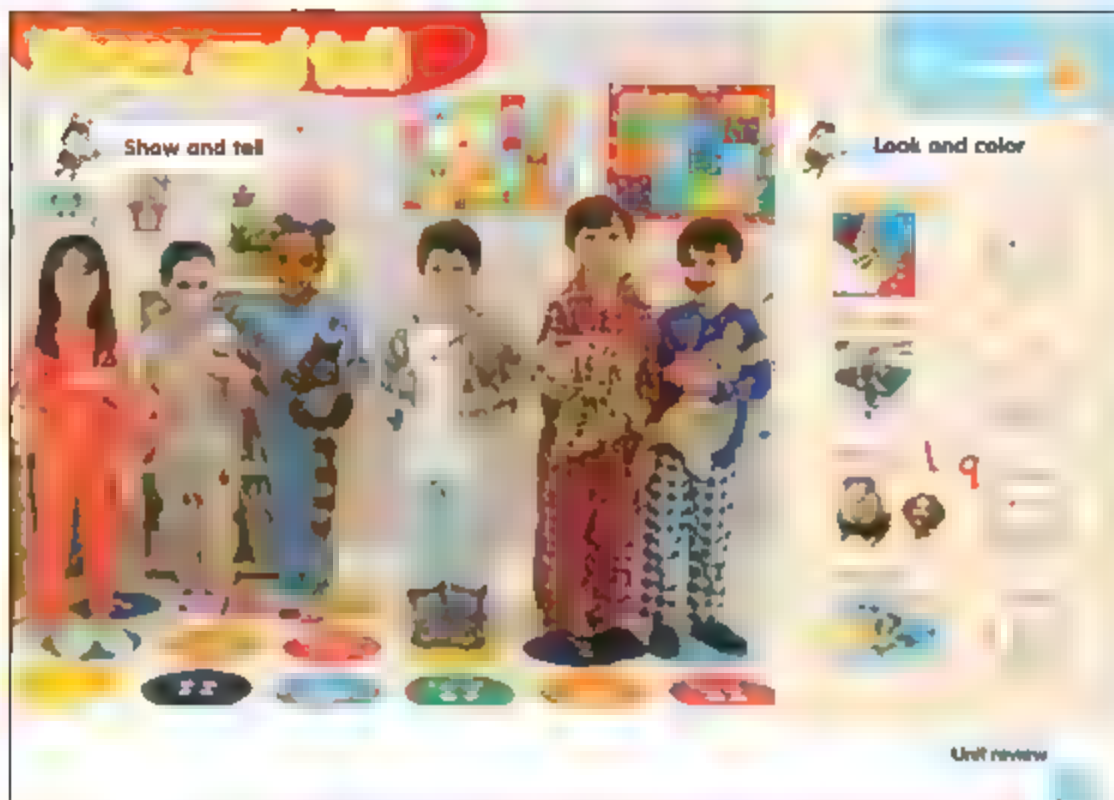

Objectives: To work on a project to make a daily activities mini book
To present your book to the class
To assess your own learning

Life skills: Creativity and communication

Vocabulary: *get up, go to bed, go to school, have breakfast, have dinner, have lunch, play with my friends*

Language: *I get up. I have breakfast*

Materials: Student's Book pages 60 and 61
Pictures of daily activities: get up, go to bed, go to school, have breakfast, have dinner, have lunch, play with my friends
A completed daily routines book to show the class if possible
Coloring pencils or crayons
Scissors

Opener

- Play *Point to the picture* (Games Bank, page 69) using the pictures of daily activities.

Presentation

Make sure you are well prepared before the class. Refer to the cut-outs on pages 75-77. Cut them out and stick them on folded paper (as shown on page 60 of the Student's Book), so that they open like a mini book. Show your mini book to the class and tell them that they will make one like it.

- 1 Say *This is a daily routines book*.
- 2 Make sure each child has seen it properly by taking it around the class.

1 Make a daily routines mini book

- 1 Help students to find page 60.
- 2 Look at the pictures together with the class. Say *Look! The children are making daily routines books. Here are the materials. I can see crayons and pencils. Look, they are coloring and folding their books*.
- 3 Explain to the class that they are going to make their own daily routines books following the instructions in the pictures. *Now you try*.

- 4 Distribute the items which the students need to make the book. Help the students to find the Unit 4 cut-outs at the back of their Student's Books.
- 5 First, students cut out the two parts.
- 6 Then they color and draw the missing part of each picture (they decorate the bed cover, draw food they like to eat on the plates for breakfast and lunch, color in the backpack, the ball and the teddy bear.) Then help the students to fold the pages to make their books.
- 7 Monitor the students' work. Encourage them to help each other and share coloring pencils, crayons and scissors.
- 8 Ensure that they clean and tidy up when they finish.

2 Look and say

- 1 Help the students to show their daily routines books to their group and then to the class.
- 2 Encourage the students to turn the pages of their book and say *I get up, I have breakfast, I go to school, I have lunch, I play with my friends, I have dinner, I go to bed*.
- 3 You can display these books in the classroom.

LESSON 6

page 61

1 Show and tell

- 1 Make sure that the students have their pyjamas, cuddly toys and other bedtime things with them. Students can put their pyjamas on over their clothes and place their other things on your table. If they don't have an item with them, this isn't a problem, because they can talk about their daily routine book instead.
- 2 Help the students to find page 61. Look at the page with the class, and explain that the children in the photograph are talking about the items which they have brought in from home. They are all wearing their pyjamas, too.
- 3 Say *Let's talk about our things. Let's go to bed*.
- 4 Choose an item and ask the child who brought it in to come to the front.
- 5 Encourage them to mime holding or using the item and going to bed. They can say *I go to bed*. Encourage students to use words and phrases that they have learned, such as *It's a (book)* or *It's (red)*.
- 6 If you have time, read one of the bedtime stories the students have brought in or sing an English lullaby and mime falling asleep. Then say *Let's get up, everyone!* The students stretch their arms above their heads.

2 Look and color

- 1 **Hold up your book.** Point to the vocabulary words. Ask *What are they?* to elicit the words. Ask the students if they know these words. If they know the words, they should color the smiley face next to the words.
- 2 Point to the *Life skills* photo. Ask *What is he doing?* to elicit that he's getting ready to go to school (self management). Discuss why getting ready independently is important. Ask

Unit 4

the students to color the smiley face next to the photo if they feel that they have learned about it's.

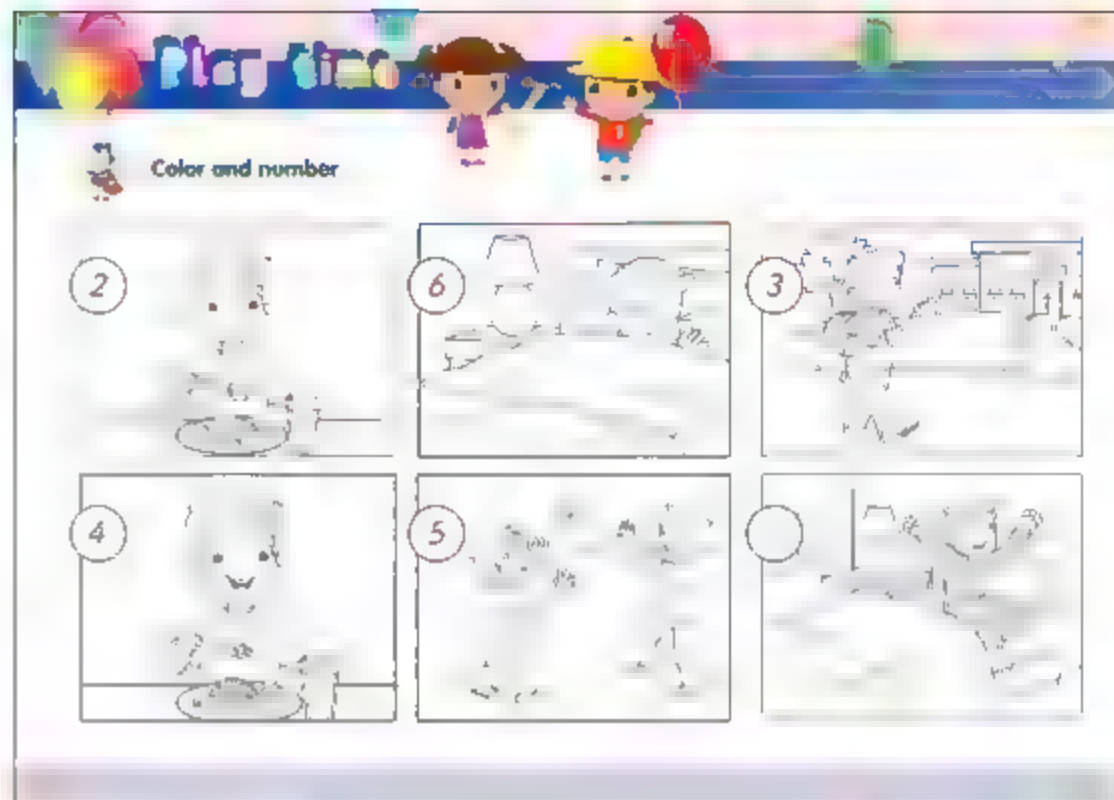

- 3 Draw the letters *l* and *q* on the board. Point to the lion in the book. Ask *What is it?* to elicit *lion*. Ask the students to point to *l* or *q* on the board. *Which is the correct letter for this word?*
- 4 Point to the queen. Ask *What is it?* to elicit *queen*. Ask the students to point to the correct letter on the board.
- 5 With your back to the class, write a large letter *l* in the air with a finger. Make the starting point and direction of writing clear. Students copy the letter in the air several times, saying the letter sound as they do so. Repeat for *q*.
- 6 Ask your students to color the smiley face next to the phonics words if they know the letters and sounds.

Practice game

- Play *Word whispers* (Games Bank, page 70) to revise all the unit vocabulary.

Closing

- Remind students about what they have learned so far and set them up for what they will continue learning in the upcoming days.
- Say *We made a book about our day.*
We talked about going to bed.
Next we will revise words from units 1-4.

PLAY TIME

- *Play time* pages give the students extra practice of the language in the unit. They can be completed at any time and are ideal for fast finishers.

1 Color and number

- 1 Ask the students to color the pictures carefully.
- 2 Tell the students to think about the order in which they do these activities every day. The first activity of the day is *get up*, so *1* is in the circle next to this picture.
- 3 Ask the students to write the numbers for the rest of the activities in the circles next to each picture. Accept all reasonable answers (*play with friends* can be at any time of day).

Look and draw

PLAY TIME

- Play time pages give the students extra practice of the language in the unit. They can be completed at any time and are ideal for fast finishers

1 Look and draw

- Tell the students to look carefully at the pictures
- If a picture shows something good that they should do, they can draw a happy face. If a picture shows something bad that they shouldn't do, they can draw a sad face

Unit 4 *This is my (mommy).*

Materials: Student's Book pages 66 and 67
Pictures of a guitar, a person kicking a ball, an apple, ink, an umbrella, a lemon, a queen

Opener

- Revise the sound /k/ by showing the picture of someone kicking a ball and eliciting *kick*.
- Write the letter *k* on the board and say /k/. Point to the letter and say /k/. Students repeat the sound /k/ with you.
- Then point to the picture again and elicit *kick*. Point to the letter *k* on the board at the same time, so that the students are saying /k/ *kick* repeatedly.
- Repeat the procedure for /æ/ (*apple*), /p/ (*piano*), /g/ (*guitar*), /i/ (*ink*), /u/ (*umbrella*), /l/ (*lemon*) and /kw/ (*queen*).

1 Play the game

- 1 Help students to find page 6. Point at exercise 1.
- 2 Say *Look! A game*.
- 3 Use the pictures to elicit the vocabulary. Point and ask *What's this?* (*pencil, guitar, kick, apple, ink, umbrella, lemon and queen*) and the sounds (/k/, /æ/, /p/, /g/, /i/, /u/, /l/ and /kw/).
- 4 Demonstrate how to play the game. Hold up your book to show the game board. Explain that the students should play in pairs and have to take turns.
- 5 The first player points to the first flower on the game board. They say the sound on the flower and the word for the picture that follows the flower /p/ *pencil*. The second player points to the next flower and says the sound and the word for the picture following that flower, and so on.
- 6 They can play the game more than once, or with different partners, if time allows.

2 Act

- 1 Play the first dialogue on the CD. Say *Listen*. Ask one of the students to model it with you. Say *I can hop*. Help the student to reply *I can hop too*.
- 2 Students work in pairs to do the speaking activity, using the pictures to help them.
- 3 You could also play the CD and pause before the words *hop*, *ball*, *lunch* and *drum* and ask the students to complete the sentences.
- 4 Confident learners can demonstrate their skills in the speaking activity in front of the class.

LESSON 2

page 67

1 Listen and point

- 1 Help the students to find page 67. Hold your book up.
- 2 Look at the first picture with the class. Explain that there are two girls and they are talking to each other. Tell the students that they are going to listen to the two girls.
- 3 Say *Listen and point*. Play the first dialogue on the CD to the class. Ask students to point to the person speaking. They should start with the person on the left each time.
- 4 Repeat the procedure for the other pictures and the other sections of the CD.

Fast finishers

- In pairs, students play *Copy it* (Games Bank, page 134) to revise the letters k, a, p, g, i, u, l and q and their letter sounds /k/, /æ/, /p/, /g/, /i/, /ʌ/, /u/, /kw/.

Practice game

Play *Word whispers* (Games Bank, page 70) to revise all the known vocabulary.

Games bank

Catch and say (1)

Use this game to practice vocabulary. You can play as a whole group or in pairs or small groups. Choose a set of vocabulary, e.g. toys. In pairs, students throw and catch, or roll a ball to each other. Each time they have the ball they say the name of something from the unit and the group or their partner repeats. The student can then either pass the ball back to you to throw or roll to the next student, or to another student who tries to think of a different word.

Catch and say (2)

You could also build the vocabulary set by asking students to repeat all the words they have heard so far and then to add another word each time they have the ball.

Circle it

Use this game to practice letter sounds and numbers and their formation. Draw between two and six different letters (and simple shapes or pictures if students only know one or two letters) on the board. Ask for a student to come to the board and circle and say a letter sound, e.g. the letter *h* (/h/). The student comes to the board and circles the letter *h*. Repeat with other students and letter sounds.

Color show

Use this game to practice colors vocabulary. Roll or throw a soft ball or beanbag to a student and say *Show me (yellow/red/blue/green)*. The student can touch any item in the classroom, whether they know the vocabulary or not, as long as it is the correct color.

Color spot

Use this game to practice colors vocabulary. Say *Find something (red)*. Students find and point to something red in the classroom. It does not matter if they do not know the vocabulary as long as the color is correct.

Copy it

Use this game to practice pre-writing skills. Students work in pairs. Give one student from each pair a picture of a simple line or shape. The student uses a finger to draw the line or shape on the other student's back. The second student then draws the line or shape on paper and they see if it matches the first line or shape that was drawn.

Follow the pattern

Use this game to practice motor skills and cooperative skills. In pairs, students stand at one side of the room. One student walks to the other side of the room, following a meandering path. The other student follows behind. When all the students get to the other side of the room, they repeat with the other student leading.

Go to the word or letter (1)

Use this game to practice vocabulary or letter sounds. Write words or letter sounds on pieces of paper. Place three or four of the words or letter sounds you are reviewing, e.g. *h/hello, h/book, r/rabbit and d/daddy*, in different corners of the room. Ask the children to move around the room to the music (you could play one of the songs from the unit). When the music stops, the students go to one of the letter sounds or vocabulary items before you count to three. Without looking, say one of the letter sounds or words. The students who are standing next to those words or letter sounds win that round. Play several times, making sure you use every word or letter sound.

Go to the word or letter (2)

You could also play a version of this game with the class seated. Name three or four students and then call out one of the letter sounds or vocabulary items on the pieces of paper. The named students move to stand next to the correct word or letter. Repeat with other students until every student has had at least one turn and you have called out all the words or letter sounds.

Guess the picture

Slowly draw a picture of a vocabulary item, e.g. *board, hook, chair, crayon, pencil or table* for classroom objects on the board or on a piece of paper. Pause for students to guess the word. Students could play in teams, with each group trying to guess first.

Hello!

Use this game to practice language. Ask students to sit in a circle. Say a student's name and roll a ball to that student. Help the student to say *Hello, I'm (name)*. Say *Hello, (name)* and encourage the class to join in. The student then rolls the ball to another student and the game continues in this way until all the class have taken part.

Memory

Use this game to practice vocabulary. You need a set of real items, e.g. a doll, a teddy bear, a robot, a balloon, a car, a ball. Place some of the items on a table and give the students a short time to look at them. Cover the items with a cloth, and ask the students to remember the items they saw.

Mime it

Use this game to practice vocabulary. Mime one of the vocabulary words for the class to guess, e.g. robot. The class says the word for your mime. You could invite a confident student to do a mime for you to guess. Students can also play in pairs.

Mingle

Use this game to practice language. Students stand up and walk around the room. When you clap, they stop and find a partner. They do a mini-dialogue with their partner, for example: *Hello, what's your name? I'm (Sara)*. When you clap again, they walk around again until you signal that they should stop and do the dialogue again with a new partner.

Missing sound

Use this game to practice letter sounds. Write a list of letter sounds on the board, e.g. *h/hello*, *b/book* and *r/robot*, and elicit the letter sounds: *h/*, *b/* and *r/*. Point to each letter sound in turn and ask students to say the sound. Then ask students to close their eyes. Remove one letter sound and ask *What's the missing sound?* Students tell you the missing sound.

Pass the letter / number

Use this game to practice letter formation. Play in groups. Students stand in groups in lines in front of the board, one behind the other. Trace a letter, for example, *h* on the back of the last student in the line. The student traces that letter on the back of the student in front of them, who then traces it on the student in front of them. They continue this until the letter reaches the student beside the board. That student writes the letter on the board. Check if it is correct. The student beside the board moves to the back of the line. Repeat the game with a different letter. You could also play this game with numbers to practice number formation.

Point to it

Use this game to practice vocabulary when you have real items, e.g. food (or toy food), classroom items, parts of the body, clothes. Choose one of the vocabulary items and say *Point to a (crayon)*. Students find and point to the item.

Point to the picture

Use this game to practice vocabulary using pictures of items cut out of magazines, when real items are not available, e.g. course characters, family members, animals, numbers. Display the cut-out pictures. Say one for the words, e.g. *daddy*. If students think they know which picture is daddy, they put up their hands. Choose a student to come to the board and point to the front of the classroom and point to the picture of daddy. That student says the next word and chooses the next student to come and point to it.

Alternatively, students could play this in pairs, using the Student's Book page.

Show me

Use this game to practice numbers. Make sure each student has some real items that they know the vocabulary for, e.g. pencils, crayons and books. They will need enough of each item to show the numbers you are practicing. Say the number, for example: *two*. Students select and show you the correct number of items. Alternatively, they could just show the correct number of fingers when you say the number. Play this first as a class and then in pairs.

Sorting

Use this game to practice sorting items into different categories, e.g. healthy and unhealthy food. Students play in groups. Use pictures you have brought in of healthy and unhealthy

Games bank

foods and some reusable adhesive. Draw two circles or sections on the board. Draw a symbol for each circle, e.g. a green spoon or green tick at the top of one side, and a red spoon or red tick at the top of the other side. Show one of the pictures to the first group and ask them to stick it in the correct area on the board. Show the next picture to the second group. Groups get a point for each correct answer.

Teacher says (1)

Use this game to practice vocabulary and language. Give instructions for the students to carry out with you. Say *Teacher says... touch your (nose)* and touch your own nose. The students touch their noses. Continue with eye, hair, ear, mouth and hand. Then say *Touch your (nose)*, without saying *Teacher says*, and show students that you are not doing the action. Students only do the action if you say *Teacher says*.

Teacher says (2)

You can play an adaptation of the game. Say *Touch your nose* but touch your own ear. Students say *No!* and show the correct body part by touching their own nose and saying *Touch your nose*.

Tracing letters or numbers

Use this game to practice letter or number formation. Play in pairs, e.g. one student traces a number from 1 to 5 on the back of the other student. The student says the number and then they swap roles.

What's (Who's) missing?

Use this game to practice vocabulary. Display a set of pictures cut out of a magazine, e.g. camel, elephant, giraffe, lion, monkey, snake. Revise the vocabulary. Ask the students to shut their eyes, and remove one picture. Ask *What's (Who's) missing?* Confirm the answer by showing them the picture.

What's this?

Use this game to practice vocabulary. You need a set of real items or pictures of items, e.g. board, book, chair, crayon, pencil and table. Demonstrate with a confident student. Show the student an item, e.g. a book, and ask *What's this?* Help the student to reply *It's a (book)*. Ask the class *Is it a (book)?* The rest of the group says *Yes, It's a (book)*. Swap roles, encouraging the student to hold the item and to ask you *What's this?* This time say the wrong item *It's a (board)*. Encourage the student to ask the class *Is it a (board)?* The rest of the class replies *No! It's a (book)*. Students can also play in groups.

Word whispers

Use this game to practice vocabulary. You need a pictures of vocabulary items, words or letter sounds written on pieces of paper. Students sit or stand in a line or circle. Show the first student in the line one of the words, letter sounds or pictures, e.g. doll, without letting the rest of the group see. The first student whispers *doll* to the student next to him/her, who whispers the word they have heard to the student next to him/her, until the word reaches the student at the end of the line or circle. He or she says the word. Students look at the pictures, words or letter sounds and see if this matches the word. If it matches, they all say the word. Students can also play this game in small groups.
